- ◆ Remotely controlled dampers
- ◆ Constant volume regulators
- ◆ IAQ demand control ventilation

Mussun Sales, Inc. is a manufacturer's representative and distributor for the premier heating, ventilating, and air conditioning products in the HVAC industry. Mussun was founded in 1951 by William G. Mussun, Jr. with a sales office for a half-dozen product lines in the Hanna Building in downtown Cleveland.

Over the years, Mussun Sales has grown and evolved to meet the demands and needs of their customers and an ever changing industry. In 1993 the company's headquarters moved to its current location, a 50,000 square foot warehouse conveniently located on Carnegie Avenue in Cleveland. The product lines represented have grown to include many new additional lines which complement one another and create a total HVAC package. The extensive warehouse facilities in Cleveland and Columbus allow Mussun Sales to accommodate customer needs with same-day pick-up of materials.

Currently stocking...
