

ANNOUNCING HEAT TRACE PRODUCTS

Indeeco offers a complete line of Heat Trace products for the most demanding freeze protection, temperature maintenance, snow melting, de-icing and specialty applications in Industrial and Commercial Markets. These products are designed and manufactured to the strictest industry standards and are third-party approved for use in hazardous Industrial areas.

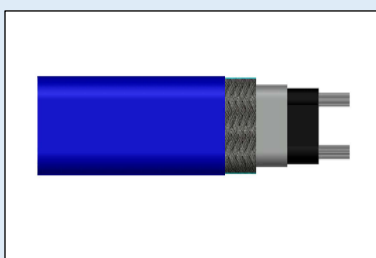

CRG

CRG Heating Cables are designed for freeze protection of metal and plastic pipes and tanks in building and construction market applications. CRG Cables are also designed and approved for use in roof & gutter de-icing applications.

LSR Heating Cables are designed for freeze protection and process temperature maintenance of metal and plastic pipes and tanks. The semi-conductive polymercore changes its power output versus pipe temperature to optimize power usage and prevent overheating.

LSR

MSR

MSR Heating Cables are designed for freeze protection and process temperature maintenance of metal pipes and tanks. The semiconductive polymer core changes its power output versus pipe temperature to optimize power usage and prevent overheating.

HSR Heating Cables are designed for freeze protection and process temperature maintenance of metal pipes and tanks. The semiconductive polymer core changes its power output versus pipe temperature to optimize power usage and prevent overheating.

DWGV- Double wall Special Gas Vent

6" & 8" NOW IN STOCK IN CLEVELAND

Jeremias Special Gas Vent was designed specifically for the condensing boiler market where ease of assembly, overall time invested and price are the main objectives. The double wall Special Gas Vent uses a gasket to seal the male-to-female connection and is secured by a locking band on the outside. The Vent is constructed of a 444 stainless inner liner, 1" airspace insulation and 304 stainless outer jacket. For use with temperatures not exceeding 550 degrees Fahrenheit continuous and pressure not exceeding 20" WC.

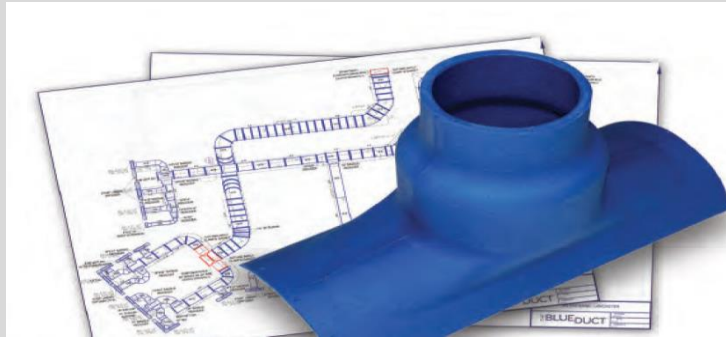

UL & ULC Listings:

- *UL-1738 Standard, Venting Systems for Gas-Burning Appliances, categories II, III & IV
- *UL-5636 Standard for Type BH Gas Venting Systems
- *UL-441/ULC-5605 Type B Gas Vent

Features:

- *All-Stainless-steel construction with 25-year warranty
- *Assurance of finest quality and reliability
- *Quick and easy insulation
- *Patent Pending field cutable length (3" through 12" only) for maximum flexibility during installation.

AQC Industries is a leading manufacturer and innovator of The **BlueDuct**[®] Underground Air Duct System for heating, ventilation and cooling (HVAC). The **BlueDuct**[®] is the only proven, direct-burial underground duct system made from ultra-durable, advanced HDPE (high-density polyethylene). The products are engineered to protect against corrosion, mold and mildew, radon, rust and air leaks.

Additional BlueDuct[®] Features:

- *Low friction surface
- *Self-insulated for R-10-equivalent performance
- *No PVC coating or potential for corrosion
- *Does not emit VOCs or toxic gases
- *Post installation air leak testing
- *Meets code standards for underground ductwork
- *Industry leading warranty
- *Advance HDPE material
- *Entire duct system with uniform construction

BlueDuct[®] Benefits:

- *Fast and Easy installation
- *Won't Corrode
- *Long-lasting, problem-pre performance
- *Provides energy savings
- *Readily available for fast shipment
- *Engineering and CAD support services
- *knowledgeable Customer service throughout North America
- *Limited Warranty

Underground Preinsulated Duct System

BATTLE OF THE BULGE

WHO WAS DICK BYERS?

In the early 1960's, Army Veteran Bill Mussun hired a savvy WWII Veteran by the name of Dick Byers.

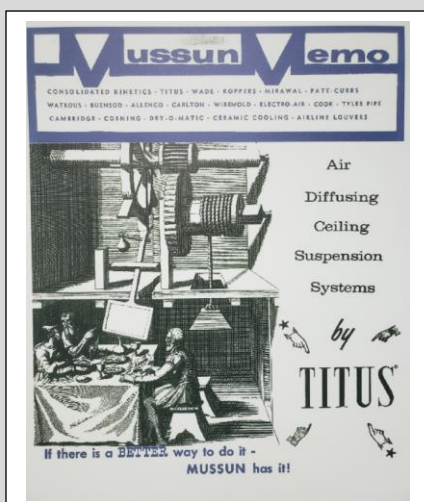

Dick fought in the Battle of the Bulge during the winter of 1944-1945. This was Hitler's last offensive against the Allies, and despite heavy losses, the Allies stopped the Nazi's progress, obliterated their tanks, and cut off their supply lines during brutal winter conditions in Belgium, France and Luxemburg.

Dick was hired to call exclusively on engineers to promote, assist, and help specify products. This was a very unique and novel approach at the time. Dick was well respected and loved his job and loved taking the show on the road. He worked with the Loren Cook Company, then of Berea, on one of the earliest mobile marketing vehicles: A station wagon with an extendable eight-foot table full of fans which would extend out the back.

In the 1960's and 1970's Mussun was still heavily invested in plumbing lines and one of their products was a heavy-duty toilet for prisons and large institutions. Dick would drive around Cleveland with the toilet on the roof of his car to help promote the product with local engineers! He would often show up with lunch on board as well.

Dick's marketing efforts included the "Mussun Memo" which you see here. We are proud to carry on the tradition of the Mussun Memo almost 60 years later. Many thanks to the late Dick Byers, for his service and inspiration!

Pate Hooded Pipe Curb Assemblies

PHA-2

- Aluminum construction
- Horizontal exit for pipes
- Removeable top cover
- 3-sided body with faceplate
- Anti-condensate coating
- Fits PCA-2 15 x 15 curb or MPCA-2/MCPA-3 (12" high or 18" high)

NOW IN STOCK!

Unit furnished with two faceplates: Blank and Quad-6 Boot.

Cook's popular MAC2000VF Mobile Air Cleaner is the ideal solution for mobile HEPA filtration in schools, offices, restaurants and retail establishments. For the latest information or to see a working demo, contact your Mussun representative today.

Berner Quick Ship Air Curtains

Length 36"
ALC08-1036EX-100
Voltage 208/3/60, 10 kW

Length 48"
ALC08-1048EX-144
Voltage 208/3/60, 14.4 kW

Length 72"
ALC08-1072EX-150
Voltage 208/3/60, 15 kW

ACCESSORIES - limited offering:

- Door Switch Magnetic Reed
- Handheld Infrared Remote Control
- Thermostat 2-Pole
- Locking Cover for Thermostat
- Toggle Disconnects - Remote Mounted
- Pair of Adjustable Depth "Z" Stainless Steel Wall Brackets
- Pair of Black Powder Coated Transom Mounting Brackets
