AIR TURNOVER ?? CONSIDER THE DIRECT FIRED E-SERIES FROM

Pure & Simple Solutions with the Best Available Technology ...

AbsolutAir offers an unbeatable combination of innovation, quality and service excellence:

100% efficient direct gas-fired burner technology

E-Series: Direct-Fired Air Turnover

Clean & Green with total energy efficiency

- *Heating up to 7,000 MBH, Ventilating up to 120,000 CFM
- *Highest heating efficiency, lowest environmental impact
- *Outperforms indirect-fired air turnover units (ATUs)
- *Competing indirect ATUs consume 25% more gas, produce 25% more CO2
- *Low first cost, simple installations, less maintenance
- *As little as 2% outside air for safe & efficient combustion

NEED TO MAKE UP A LOT OF AIR? R-Series: Direct-Fired Heating & Ventilating

Energy-Saving Building Pressurization

- *Heating capacities from 800 to 17,000 MBH
- *Ventilating capacities from 4,000 to 130,000 CFM
- *Upright or horizontal units for indoors and outdoors
- *Robust double-wall insulated cabinets available
- *100% OA, 85/15 return-air and variable-volume models
