Mussun Sales, Inc. is a manufacturer's representative and distributor for the premier heating, ventilating, and air conditioning products in the HVAC industry. Mussun was founded in 1951 by William G. Mussun, Jr., originally located in the Hanna Building in downtown Cleveland, with a half-dozen product lines.

Over the years, Mussun Sales has grown and evolved to meet the demands and needs of its customers in an ever-changing industry. In 1993, the company's headquarters moved to its current location, a 50,000-square-foot warehouse, conveniently located on Carnegie Avenue in Cleveland. The product lines represented have grown to include additional lines, that complement one another to create a total HVAC package. The extensive warehouse facilities in Cleveland and Columbus allow Mussun Sales to accommodate customer needs with same-day pick-up of materials.

Our mission has, and continues to be, to represent the industry's premier product lines and provide our customers with the highest level of service.
